

# JESS LEE

## FULL BIO

After many years of making melodies in her bedroom, Cambridge-based **Jess Lee** decided it was time to captivate the world through her thoughtful tunes and delicate, lovely lyrics.

Before the release of her debut EP, **Out of Dust**, Jess spent many years feeling lost and aimless; drifting day-to-day, she would question her purpose of existence. The only consistent, recurring theme was her **faith**. Trusting God even when you're lost with no sense of direction was what inspired Jess to write the lead single 'Arms Wide Open'; a testimony of God's faithfulness. The track focuses on the brokenness and seeming frailty of humanity, and how 'You' always finds us with 'arms wide open'.

After receiving a tremendous response from nationally-recognised Christian radio station, **UCB2**, her track was named as 'pick of the uploader' on **BBC Radio Introducing Cambridgeshire** and she has featured in their *Getting To Know You* segment. **A STEP FWD** continues to support Jess Lee, awarding her the **#2 spot** on the **UK Christian Chart**:

*"Arms Wide Open is stunning. While Jess Lee may come across as understated, her music is anything but and the reflective, vulnerable, lyric-driven track is no exception."*  
Tose Umobuarie, STEP FWD

Jess writes from real experience and emotion; it soaks through and flows from every curve and corner of the EP. Jess Lee is absolutely one to watch.
