## ABOUT JESS LEE

'Child' is the new EP from Cambridge-based singer-songwriter **Jess Lee**. Following on from her 2018 debut EP 'Out of Dust', Child is a collection of songs of intimacy and dependency on God.

*"For me, these songs are a reminder that my identity and purpose are found in God, my loving Heavenly Father, and I can rest in the certain knowledge that I am accepted and loved as His child".*

The five-track EP, brimming with hope and truth, will breathe life into weary hearts. 'Child' was released on the 12th March on all streaming platforms.

When she isn't singing or songwriting, Jess can be found busy at work in Cambridge's main public library, however, she still makes sure to sing to a captive audience (*albeit a much younger demographic*) at regular library rhyme times.

## LOCKDOWN ALBUM

During the 2020 lockdown, Jess undertook a 30-day songwriting challenge, with the aim of finishing 10 songs within that time. Not used to writing to a deadline, she used an inspired 'chocolate chart' by way of incentive. A bar of chocolate was the reward for each finished song and Jess did her very best (*despite a couple of weak moments*) not to eat any other chocolate during this challenge. A large bar of galaxy chocolate awaited the completion of song number 10, just in time on day 30.
